# Geocaching at PGEC

ALL TEXT TAKEN FROM: <https://www.geocaching.com/>

**BACKGROUND:** Geocaching is a real-world, outdoor treasure hunting game using GPS-enabled devices. Participants navigate to a specific set of GPS coordinates and then attempt to find the geocache (container) hidden at that location. Geocaching is happening right now, all around you. There are 2,575,695 active geocaches and over 6 million geocachers worldwide.... For more information and downloadable Apps Go To: Geocaching 101: <https://www.geocaching.com/>

## MATERIALS:

The only necessities are a GPS device or a GPS-enabled mobile phone so that you can navigate to the cache, a geocaching app, and a [Geocaching.com Membership](https://www.geocaching.com/membership) (free or paid).

## RULES OF GEOCACHING:

1. If you take something from the geocache leave something of equal or greater value.
2. Write about your find in the cache logbook.
3. Log your experience at [www.geocaching.com](http://www.geocaching.com).

## WHERE ARE THE GEOCACHES (CACHES) LOCATED:

Geocaches can be found all over the world. It is common for geocachers to hide caches in locations that are important to them, reflecting a special interest or skill of the cache owner. These locations can be quite diverse. They may be at your local park, at the end of a long hike, underwater or on the side of a city street.

## DIFFERENT TYPES OF GEOCACHES:

There are currently over a dozen "cache types" in geocaching, with each cache type being a different variation of the game. Types: Traditional Geocache, Mystery or Puzzle Caches, Multi-Cache, EarthCache, Letterbox Hybrid, Event Cache, Night Caches, and many more.

For a list of the types of geocaches go to: <https://www.geocaching.com/guide/>
